

Just what you need...safety, reliability, convenience

Nalge Nunc International (NNI) offers you a full line of cages and accessories for small laboratory animals. Meticulous attention to design, material selection, manufacturing and quality control ensure convenient, reliable products.

NALGENE Animal Care products are designed to provide a safe, protective environment for your animals and contribute to the success of your research.

NALGENE **Metabolic Cages** feature a unique funnel-and-cone design to separate the animal's excreta outside the cage, completely and immediately.

NALGENE **Plastic Animal Cage Systems** house mice, rats, hamsters and guinea pigs. These "domicile" cages are systems of integrated components: cage bodies, water bottles, filter covers, lids, feeders, multi-cage racks and many other accessories.

NALGENE **Activity Wheel Systems** are ruggedly constructed for studies of circadian rhythms, ingestion and drug or chemical studies.

NALGENE **Ventilated Cabinets** allow safe transport or isolation of delicate or infected animals.
